

RESTORATION

Lookin' over the length of my days
Searchin' for a meaning, it's too far away
Something simple, something sweet
Greener pastures, a Summer treat

And I'm bursting with a latent confidence
Smiling and a struttin' along
Finished with a lot of intensity
Singin' a victory song

I was sittin' on the edge of my seat
Tryin' to stay calm in all that heat
Walked on air, no feet on the ground
God, I wish that you were around

And I'll need you to guide me
Down that long and tortuous road
Don't you leave me
Hangin' out on my own
(Let's start the restoration)

And I'm bursting with a latent confidence
Smiling and a struttin' along
Finished with a lot of intensity
Singin' a victory song

She was in the subway
I'd seen her at school
And I needed to get her attention
So I asked her how often the trains ran there
Even though I knew what she'd answer
An older lady, a younger man

Walked along, they were holding hands
But the hand turned to stone
And the kid's all alone
And he doesn't know how to forget

And I'll need you to guide me
Down that long and tortuous road
Don't you leave me
Hangin' out on my own
(Let's start the restoration)

And I'm bursting with a latent confidence
Smiling and a struttin' along
Finished with a lot of intensity
And singin' a victory song

And I'll need you to guide me
Down that long and tortuous road
Don't you leave me
Hangin' out on my own
(Let's start the restoration)

And I'm bursting with a latent confidence
Smiling and a struttin' along
Finished with a lot of intensity
Singin' a victory
Singin' a victory
Singin' a victory song
