

PIONEER LOVERS

It started out so green
It started out so fresh
We were both pioneer lovers
We were both pioneer lovers

In a new frontier
In a natural formation
We stared and we wondered
How it came to be
The dark sky above us
And emotions so free

It started out so green
It started out so fresh
We were both pioneer lovers
We were both pioneer lovers
We were both pioneer lovers
We were both pioneer lovers

She looked at me
With her little girl eyes
The thoughts on her mind
Lead to soft cries
We grabbed the moment
It didn't escape us
But I'm afraid
It did deceive us

'Cause in the night
You can lose yourself
Oh, you can fool yourself
Forgetting what's beyond the trees
Speeding up time
It satisfies you

It started out so green
It started out so fresh
We were both pioneer lovers
We were both pioneer lovers
We were both pioneer lovers
We were both pioneer lovers

She said she's the rainbow
I think she's the rain
But no, no, no
She can't wash away the pain
The kid'll really need some time
Before he's ready to make the climb

Hey, I got a backbone just like the trees
I got strength
I won't fall on my knees
And I'm ready to fly

It started out so green
It started out so fresh
We were both pioneer lovers
We were both pioneer lovers
We were both pioneer lovers
We were both pioneer lovers
