

SLOW DOWN

She says slow down
Take it easy, easy
Feel the warm and sandy beach
See the birds making tracks
As the little boy laughs
It's the end of the day
It's a good time to stay
It's the end of the day
It's a good time to stay

Well, the sun's coming up
And it's quiet at the sea
Well, I'm running too fast
'Cause I think I need the time
Still she walks along the shore
Hears the ocean waves
Will you wait for me now?
Stop and see what I can see
Will you wait for me now?
Stop and see what I can see

She says slow down
Take it easy, easy
Feel the warm and sandy beach
She says slow down
Take it easy, easy, easy

And she says hold on
The new year's almost here
We can sit at the bar
See the sun up, come down
Take a sip at a time
Let it swirl round and round
Let the wine work its way
We are near, but faraway
Let the wine work its way
We are near, but faraway
Slowdown

She says slow down
Take it easy, easy
Feel the warm and sandy beach
She says slow down
Take it easy, easy, easy

Slow down, take it easy
She says slow down
Take it easy
